TAXIDERMISTRY (OPTIONAL)

What happens to your trophies after your hunt?

1. Straight after your hunt, your trophies will be dropped off at our registered and reputable Taxidermist who will check the PH register when the trophies are received. They are very reasonably priced. We try to save you +/- 40% as of your US pricing.
2. The Taxidermist will then be in contact with you to confirm that the trophies are collected, to recheck all details and what should be done with the trophies, e.g. Dip in Pack, Skull Mounts, Shoulder Mounts and Tanning of flat skins.
3. Skulls will immediately go into the cleaning process, and skins will be checked and dipped in antibacterial solution to prevent any damage from bugs, etc.
4. When skulls and skins are dried out completely the mounting process will start and the Taxidermist will contact you again, just to make 100% sure about the mounting instructions.
5. After the mounts are dry and finished the Taxidermist will arrange a date with the shipping company for professional packing of your trophies.
6. After packing and moving the trophies to the Shipping Company's warehouse in JHB, they will start correspondence with you.
7. We will also start applying for export permits 2-3 weeks before packing to speed up the process when the trophies arrive in Johannesburg.
8. It will take a few weeks for your trophies to arrive in the US via your agents in the US.
